

June 8, 2010

To whom it may concern,

It is without hesitation that I recommend Stir as a supplier for web hosting and web development services. Their team of professionals has excellent communication and customer service skills.

Stir's work is always delivered on time, and with outstanding quality. Their web maintenance tools are user-friendly. This provides the user with a fast and easy way to make updates and content changes to any website.

I would welcome the opportunity to speak with any prospective client to discuss in more detail the value which Stir would bring to any company's website they may have to work at.

Sincerely yours,

Carlos Berea
